Our topic this month is "Hospice, End of Life Issues and Placement" presented by **Robert A. Friedman MD**. Dr. Friedman is board certified in Family Medicine; Fellow American Academy

of Family Practice; Diplomate American Board of Hospice and Palliative Medicine; Member of the American Academy of Hospice and Palliative Medicine.

Dr. Friedman's Career reflects over 20 years of practicing as a full service Family Practitioner and during the last 10 years he has gained valuable expertise as a Medical Director and Consulting Physician in the area of Hospice and Palliative Care. He was, as well, a vital participant in the conception and realization of an inpatient palliative care program. Dr. Friedman is frequently invited to share with the public on an array of topics pertinent to their healthcare. These topics vary from preventative

health maintenance to end-of-life and hospice issues. In 2005, Dr. Friedman chose to devote himself to Hospice as a full-time Medical Director. As an active team member, he is committed to providing hands-on care in the home setting applying the principles and practice of Hospice and Palliative Medicine.

Our Sponsor this month is

Only one in three eligible patients access the hospice benefit available to them, and through a pioneering philosophy, VistaCare is working to address this nationwide issue, one patient at a time. VistaCare believes there should be no barriers to high quality end-of-life care and that all hospice-eligible people deserve the best care possible. VistaCare's philosophy enables all hospice-eligible patients and their families to receive care, regardless of the complexity of their medical needs or issues. Patients retain control of their care, are encouraged to make choices, and do not have to give up current treatment or surrender the hope that they may recover. There are no further conditions or restrictions, beyond eligibility requirements.

The VistaCare Mission

"The passionate pursuit of excellence in nurturing the physical, spiritual, and emotional well-being of our patients and their families, while being responsible stewards of our human and financial resources."
